SEAT Mii.
1953. The first SEAT rolls off our Barcelona production line and a whole country starts moving. More than 60 years later and we’re moving people all over the world. But Barcelona still inspires us. Its creative spirit runs through our veins. Feeds into every car we produce. (In fact, 50% of the energy we use to make our cars comes direct from Mediterranean sunshine). This is a city that never stops. And neither will we. Why? Because you have places to be.

Created in Barcelona.
The world is full of possibilities. SEAT makes it easy to take hold of them. Plot your own route. Set your own goals. Keep moving through your ever-changing life. It’s what we do.

Because if it doesn’t set you free, drive you forward, make things better, what’s the point? If it’s not easy, it’s not mobility.
Your Mii.

Fearless forever.

It feels great to look this good. A clever, compact design with 5 doors. Smart details, like oversized headlights, dynamic front grille and an impressive range of alloys. You can even mix and match your roof and body colours. Yours to show off.

Style. You can’t have too much.
Go on. Treat yourself.

Life is made better by little luxuries. Like upholstery with coloured stitching. A dashboard that you can customise with cute details. Or a leather trimmed steering wheel that you’ll never tire of holding. This is living.

Go on. Treat yourself.
Music matters, especially when you’re on the road. So make sure your sound system is up to the important job of keeping the party going. A BeatsAudio™ system equipped with 300 W amplifier, 6 high quality speakers and subwoofer in the boot delivers premium party experience. And why not lighten up the mood at the touch of a button by letting in some sun through the panoramic sunroof? Let the good times roll.
