Our vision of the future

28

We move like you move.

At SEAT, we believe in moving smarter, lighter, easier, and always take inspiration from the progressive nature of Barcelona. That's why we created SEAT MÓ: the 100% electric urban mobility range that's committed to a cleaner urban environment.

So, stay in perfect harmony with the flow of your city but never stop moving in your own way.

SEAT MÓ cares about:

The environment
Cities
People

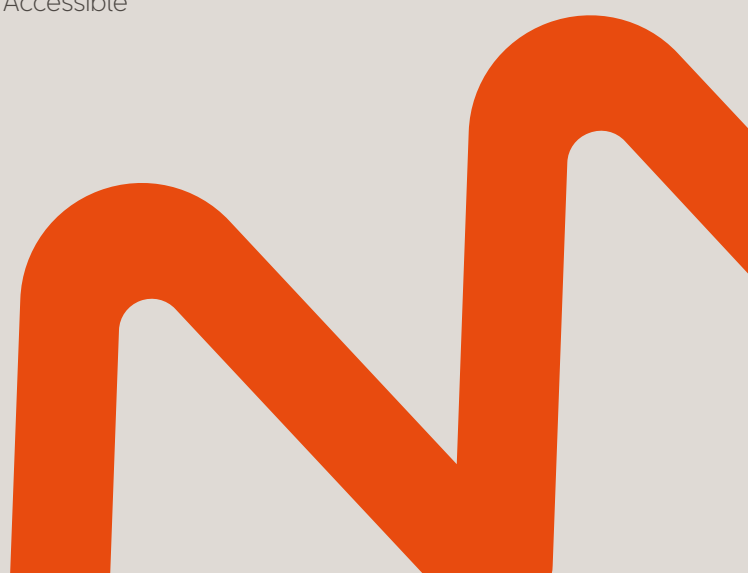

SEAT MÓ products are:

100% electric
Noise-free
Pollution-free
Fun to ride
Minimum footprint

SEAT MÓ services are:

100% digital
Affordable
Accessible

SEAT MÓ 125

Move light, move free.

The SEAT MÓ 125 is the new electric way to move through your city with ease. An eco-friendly mobility solution made for bold future living.

100% electric. Zero noise. Zero emissions. With 3 colours to choose from.

Enjoy our video:

Power up and get going.

Are you ready for an eco-friendly mobility solution?

A high-performance, purely electric scooter that goes 0-50 km/h in 3.9 seconds. With a range of more than 125 km and top speed of 95 km/h for the freedom to fully explore the city, as well as beyond.

More than just a smart way to move around the city.

Because the way you move is a statement of who you are.

CHOOSE YOUR COLOUR.

- Oxygen White
- Dark Aluminum
- Daring Red

Your new SEAT MÓ eScooter 125 is available in three exclusive, matte-finish colours. Which one do you want to mix your city up with?

RIDING MODES.

The SEAT MÓ adjusts to your riding style. With 3 riding modes plus reverse gear to choose from. Move inside the city as well as outside;

1. Eco mode tops out at 60 km/h to minimise your battery usage.
2. Balance battery usage and performance in City mode capable of hitting 80 km/h.
3. Sport mode allows for more speed and acceleration with a top speed of 95 km/h.

REVERSE MODE.

Effortlessly back out of those tight spots with this exclusive feature.

SEAT MÓ 11

REMOVABLE BATTERY FOR EASY CHARGING.

A portable solution to make charging easier. The IP67 certified battery is resistant to liquids and dust. Simply plug it into a conventional socket or remove it from the scooter and transport it to a more convenient place to charge.

The new way to see and live the city.

Packed with smart and user-friendly features and 100% LED lights, made for you to get the most out of your city.

HELMET SPACE.

Go where you want with who you want. 50l of storage space under the seat gives you plenty of room for two helmets or even your bag.

INNOVATIVE DIGITAL DISPLAY.

Enhanced visibility over your driving data and vehicle status. Monitor your battery charging level and temperature and switch between riding modes quickly and easily.

Your SEAT MÓ. Your world.

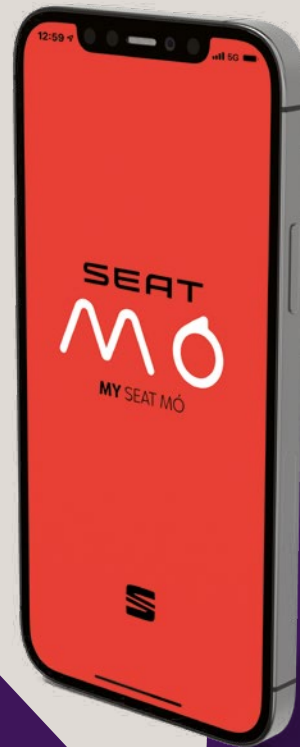

With My SEAT MÓ App, everything's always connected and in the palm of your hand. The way it should be.

ONLINE REMOTE SERVICES.

Total control in the palm of your hand. Download the SEAT MÓ App and get software updates and alerts, no matter where you are.

- Check Battery level and range.
- Track location.
- Review total mileage.
- Track CO₂ emissions saved.
- Battery disconnection alert.

Download the app here:

KEYLESS.

Why carry a key when you can use your phone? Start up and turn off and open the seat compartment, all via your phone.

INSTANTLY UPDATED.

Get low battery warnings and maintenance notifications sent straight to your mobile. For complete peace of mind.

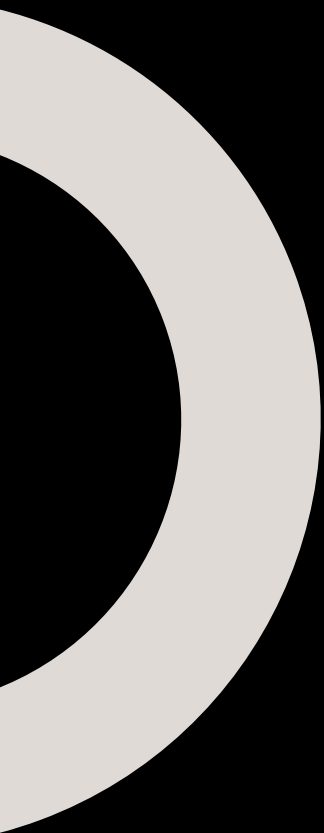

SEAT MÓ 15

SEAT MÓ

Accessories

The SEAT high-quality accessories are made to suit your personal style. Designed to improve your ride and help getting from A to B, safer and easier.

Always original.

Always you.

MOBILE SUPPORT BY SHAD™.

Keep your phone where you can see it with this support and holster for your mobile. Fitted with an articulated support for increased visibility to get you around town, safer and easier.

HELMETS BY HEBO™.

Who says safety gear can't look good too? Choose one of the 2 Hebo™ helmets featuring smartlight by Cosmo™. The smartlight links to the scooter by bluetooth and acts as a third safety light when applying the brakes.

DISC BRAKE PADLOCK.

For added security when parked up either at home, or when you're out and about, the disc brake padlock makes moving your SEAT MÓ a tall task.

PROTECTIVE GLOVES BY HEBO™.

Neither the cold winter mornings nor the summer afternoons need be a problem. Both summer and winter options add protection and comfort for your hands. All year round.

SEAT MÓ 25

Meet the 100% electric kick scooter:
eco-friendly, affordable and fun.

Lightweight and compact,
for you to explore the streets
and cruise through your commute.
Fully and freely while being
completely environmentally friendly.

Introducing the smarter and cleaner way to get around.

100% ELECTRIC.

No fuel means no emissions. With a long-lasting battery, the ability to tackle inclines of up to 10° and a range of 25 km.

ENHANCED SAFETY FEATURES.

LED front & rear lights help you see and be seen in low light. Fitted with both electrical and mechanical brakes for added stopping power and cruise control for a smoother ride.

Download the app:

Our vision of the future.

We believe in challenging tradition. In taking chances and continuously moving forward. Because that's how true innovation is born.

CLEVER SOLUTIONS FOR THE MODERN CITY.

From parking problems to access of restricted zones without charges, the 4-wheeler SEAT MiniMÓ Concept was designed to tackle the challenges of urban living, something we as a brand keep working on in order to offer innovative solutions.

MOTOSHARING.

SEAT MÓ envisages motosharing as an example of how we move through the modern city. In Barcelona alone, thousands of people already use scooters as their number 1 choice of transport.

100% ELECTRIC MOBILITY.

There's no doubt the future is electric. And with a growing network of city charging points, urban mobility looks set to change for the better. A greener environment, and a better future for us all.

FROM BARCELONA TO THE WORLD.

CASA SEAT is our mobility hub and global headquarters where we not only develop new mobility solutions, but also promote culture and eco-friendly alternatives for modern living. Come and visit us on the corner of the iconic Passeig de Gracia and Diagonal streets.

A COLLABORATION OF SUSTAINABILITY.

As part of the Astipalea Project, we proudly participated along with three other members of the VW Group, managing to deliver 100% electric mobility to electrify a Greek island and develop a 100% sustainable ecosystem.
